Superformance Mk III
Owner's Manual

Third Edition

Update – Version 35 and 36 to Version 38

This is an update from Version 35 to Version 38. If you already have a Version 37 or 38 manual, it is so indicated in the lower right hand corner of page ii in your manual. Every other Owners Manual owner was either shipped Version 35 or was shipped a complete update to bring their manual up to Version 35. If you have a Version 35 or 36 manual, this update applies to you.

Changes from Version 35 and 36 to Version 37

The changes for Version 36 and 37 are combined.

Pages Updated	Pages Included	Change
ii	i-ii	Version number printed in lower left hand corner.
xiii-xiv	xiii-xiv	Changes to Table of Contents
78	77-78	Under Engine Coolant, added "Coolant should be visible in the tank, but the tank should not be full."
159	159-160	Header formatting for 22a
170	169-170	Information added to clarify the relationship between wiring harnesses and connectors. Added a reference to the new Instrument Panel Harness text and diagram.
173	173-174	Reference to Instrument Panel Harness.
189-190	189-190	Clarification of connector names
198	197-198	Changed "the publication date" to "the initial publication date"
201-203	201-204	Added "Appendix B: Instrument Panel Harness 1900 On" text and drawing.

Changes from Version 37 to Version 38

For all versions through Version 37, the base Microsoft Word document page size is 5.5x8.5. The document PDF is scaled up 126% to 8.5x11 when printed. For Version 38 the base Word document page size and contents were scaled up to full scale at 8.5x11. The document PDF is then printed with 100% page scaling (no scaling). The page by page contents are unchanged from Version 37 to Version 38. If you have a Version 37 manual there is no update needed to get to Version 38.

The Version 35 to Version 38 update is provided in the new full scale format and is compatible at the page content level with Versions 37 and earlier.

Printing

This update is in 8.5x11 format. Print the PDF with Page Scaling set to None. The front and back of each changed page are provided in case you are printing double sided.
